Environment

OS: Windows 11 Home x64
Oracle VM Virtual Box v 6.1.34 r150636 Windows XP x64

Description

STR:

1. Open the "Kimba2" app
2. Click "File"
3. Click "Folder"
4. Select any folder with images (e.g "JPEG")
5. Click "OK"
6. Click "File"
7. Click "Create Gallery"
8. Click "Create"
9. Repeat steps 2-7 with another folder (e.g "PNG")

Result: Deletes images from the directory that were previously archived.

Expected result: The new images should be archived to a folder with a different name, not the one where the previous gallery was created. As required, there should be a folder with the name of the current gallery, in zip format. (e.g "PNG.zip")

[MST286-3219] Create Gallery: Max file size for big pictures >100 KB, incorrect path of the folder when archiving pictures
